

# CK Power Establishes Office In Kansas City

## KANSAS CITY, KS.

**C**K Power is excited to announce that the company has expanded with a new office near Kansas City. This new office is located at 9131 Bond Street in Overland Park, Kansas – a small suburb located just south-west of downtown Kansas City. The main phone number for the new office is (913) 213-5600.

CK Power is the exclusive distributor for Kohler generators in Missouri and Kansas; in fact, CK Power and Kohler have enjoyed a partnership spanning more than three decades. As such, the new office is expected to greatly increase the availability of Kohler's reliable power systems to the Kansas City area.

"We are thrilled at the prospect of expanding our presence in the Kansas City region," said CK Power CEO John Costello. "We're creating a number of job opportunities for the area, and at the same time we're broadening our ability to serve both new and existing clients. This truly is

a win-win situation for everyone – both for CK Power and for the region's many businesses and households."

For more than 50 years, CK Power has been serving the industrial and residential power needs of St. Louis and the Midwest region. CK Power is the exclusive distributor for John Deere, Volvo Penta, Kubota and Wisconsin engines in the Midwest and Rocky Mountain regions, and the exclusive distributor for Kohler generators in southern Illinois and the entire states of Missouri and Kansas.

For more information, contact John Costello at 314-868-8620.
