

# Ewing Field Day Set For September 10

DENNIS R. EPPLIN

## MT. VERNON, ILL.

**T**he Agronomy Tour at the University of Illinois Ewing Demonstration Center is set for Thursday, September 10, at 9 a.m.

Vince Davis, U of I Extension soybean specialist, will be discussing the topic of High Yield Management for Soybeans. Steve Ebelhar from the U of I Dixon Springs Agricultural Research Station will present information on the latest wheat research. AgStrong officer Robert Davis will offer details on canola marketing opportunities.

Other field day topics include Japanese beetle research, and the history and contributions of Ewing Field.

Representatives from Qualisoy™ will explain opportunities for growing healthier soybeans and taking advantage of marketing opportunities.

A complimentary lunch will follow the field tour.

This year marks the centennial observance for Ewing Field. The University of Illinois started research and demonstration work at Ewing in March of 1909. The center's new multi-purpose storage/education building will be showcased, along with recognition of donors who contributed to the construction of the building.
