

# Fruitland Livestock Market

JUNE 5, 2012 • Fruitland, Mo.

Receipts: 650; Last Week: No Sale; Year Ago: 395

Compared to last week, steers and heifers lower quality. Many showing excessively rough hair caused the average price to be lower. Good quality light weights topped \$10 higher. Dry conditions in much of the area are causing many to feed hay from an already short hay crop this spring. Thus a larger than normal amount of cows are coming to market. Cows trended \$5 lower.
