

# Reliable Performance Products Made By Helm

## MEMPHIS TENN.

**W**ith headquarters in Memphis, Tennessee, Helm Agro US, Inc. began operations in January 2003 as an independently operated subsidiary of Helm AG of Hamburg, Germany, utilizing imported actives to formulate end use products in the USA.

Helm Agro was founded to bring generic crop protection products to the US utilizing Helm AG's worldwide position in generic agricultural products and the experience of the Helm Agro

staff in chemical production and marketing.

Helm Agro first started business by bringing glyphosate under the trade name Helosate®, Ro-Neet®, and Sutan®. DB7500, Bakker, Helosate Flex®, and Helm-Ade have since been added to the product portfolio.

Helm Agro is aggressively seeking US EPA registrations for additional products. Helm will have the independent generic products for the US market. Δ
