

# UT Weed Tour Set

## MILLINGTON, TENN.

The UT Weed Tour will be held at a different location this year. With glyphosate resistant Palmer Amaranth becoming such a management challenge in West Tennessee we will have the UT Weed Tour at a field that was documented last year to have glyphosate resistant Palmer. We have a number of different research tests on-going at this site in RR soybeans, LL soybeans and cotton. The location of the tour is in a field west of Millington, TN. The date will be Wednesday July 8th. Pre Registration will be at 9:00 with the tour starting at 9:30. We will go to lunch at the Old Timers restaurant between 11:30 and 12:00 in Millington.

The location of the site can be a little hard to find. Coming from Highway 51 in Millington turn west onto Shelby Road. Travel on Shelby Road until you come to Shake Rag Road. This will be at a "T" intersection. Turn South onto Shake Rag Road and travel about a mile. We will have a sign up where to turn in on the right. Those of you with GPS units it is @: 35.34326 089.95475. Δ
