

Wind Energy Contracts And Carbon Meeting Set

WAYNE FLANARY

HOLT COUNTY, MO.

Landowners will want to attend the Wind Energy and Carbon Sequestration Meeting to be held February 8th with check-in at 9:30AM and meeting promptly starting at 10AM. The meeting will be held at the TJ Hall Building in Oregon, MO.

Many landowners are being asked to work with wind companies to provide the land to set up wind turbines. Professor Shannon Ferrell, State Ag Law Specialist at Oklahoma State University will share his experience in working with wind energy companies in Oklahoma. He will be speaking regarding contracts and will provide analysis of contracts that will help landowners in their decisions.

Also, University of Missouri Commercial Ag

Professor, Ray Massey, will discuss the risk, new contracts and easements relating to both wind and carbon markets.

Contract analysis is important to both carbon and wind as these are new types of contracts being offered. Also, a discussion of the Cap and Trade agreement will also be in the program and its possible impact.

Pre-registration is required for us to plan lunch, materials and can be made by calling the Holt County Extension Office at 660-446-3724 to reserve your seat.

For more information, contact Wayne Flanary, Regional Agronomist, University of Missouri Extension at 660-446-3724. Δ
