

Working Hard To Promote Interests of U.S. Rice Producers

HOUSTON, TEXAS

Gary Fioranelli (USRPA Chairman),

Since 1997, the US Rice Producers Association has worked hard to cultivate domestic and international markets, educate producers and the public, research and develop potential markets, and promote the interests of all U.S. rice producers. Our Mississippi board members are

Gibb Steele, Nolen Cannon Jr., Rex Morgan and Penn Owen. We would like to thank them for all their hard work this year. To learn more about USRPA or receive our weekly newsletter, please visit www.usriceproducers.com. Δ
