

engines, inc., Introduces 2009 Series, Tier 3 Irrigation Power Units

JONESBORO, ARK.

The new T3 2009 Series of Irrigation Power Units has been introduced by engines, inc., the Mid-South's leading provider of diesel irrigation power units.

The new Tier 3 emission certified lineup consists of 16 different models – 4T80 through 13H500 offering from 64 to 500 continuous horsepower.

Reducing emissions requires a combination of

proven technologies, some new ideas, and a keen understanding of the unique demands of nonroad applications. John Deere engineers look at meeting engine emissions regulations as an opportunity to advance new technologies that increase fuel efficiency and improve engine performance.

Please contact your local John Deere dealer for more information. △
